**Chemical Analysis**

This product had undergone overall migration testing in accordance to the standardized testing conditions set out in Regulation (EU) No. 10/2011 Plastic Materials and Articles Intended to Come into Contact with Food. The overall migration values obtained with the tested simulants such as 3% acetic acid, 20% or 50% ethanol, and olive oil are below the limits. The extractive residue analysis was also conducted as per FDA 21 CFR 177.1520 Olefin Polymers, and the values obtained are also below the limits.

All Sistema products are tested in accordance with EU and FDA food contact standards for repeated use containers. Sistema does not add any chemicals to any of its products that are subject to restrictions or specifications, including aromatic amines, bisphenols, heavy metals, and phthalates.

Sistema holds raw material suppliers to strict guidelines on regulatory compliance requirements, including EU and FDA regulations. Sistema requires its suppliers to demonstrate and declare that none of the chemicals they are using are subject to restrictions or specifications; and are not present in the supplied raw materials.
