

# &Tradition®

Congratulations with your new Collect | Planter.

Please follow these instructions for correct use.

If you have any questions or comments, please contact:

[info@andtradition.com](mailto:info@andtradition.com)

Please do not place the planter directly on a delicate surface.

For a healthy plant, it's recommended to allow water to be absorbed.

This can be done by placing clay pebbles in the bottom of the planter.

The planter can be used for both outdoor and indoor, however  
the planter is not frost proof.

Manufactured: PRC
